Lightweight STEP-UP STIRRUP™

...with the hidden 'drop-down' step!

Use the "Step-Up Stirrup's" hidden drop-down feature that provides a step that is 4" lower! The stirrup lowers 4" from the frame of the main stirrup for easier mounting into the saddle. Once mounted, the rider returns the lowered stirrup into the frame with their toe or hand.

Constructed of high strength resin reinforced nylon tested to work for riders weighing up to 300 lbs.
