Fabtron Nylon is guaranteed the most "horse-friendly" in the equine industry. How? It's all in the weave!

Specially woven in a unique "soft" webbing, our premium, heavy-duty nylon yields a soft and flexible 'feel' instead of a stiff and abrasive one. Add to that our computer box-and-cross stitching at all stress points and cleanly-drilled holes using our patented process and you end up with maximum comfort and fit while still retaining the premium break strength (6,000 psi) required for heavy-duty use. ... the Fabtron "Comfort-Fit" line of Nylon.
