Fabtron Nylon Halters are guaranteed the most "horse-friendly" in the equine industry.

Premium Nylon in 10 colors

How? It's all in the weave!

Specially woven in a unique "soft" webbing, our premium, heavy-duty nylon yields a soft and flexible "feel" instead of a stiff and abrasive one. Add to that our computer box-and-cross stitching at all stress points and cleanly-drilled holes using our patented process and you end up with the halter preferred for maximum comfort and fit while still retaining the premium break strength (6,000 psi) required for heavy-duty use. ... the Fabtron "Comfort-Fit" line of Nylon Halters.
